

## **NEW EMS UPDATE MOBILE APP**

**We are pleased to present our new app for EMS Update 2023! Scan the QR code, install the Eventee app and add our event. Don't forget to add your profile and start adding sessions to your personal agenda, view information on our speakers, exhibitors and sponsors and network with attendees. This app is free and safe.**

Helpful hints about our mobile app.

You can change the date on the top of the app. It defaults to Wednesday.

In the upper right corner, you can click the person outline and discover our speakers.

If you click on a session, you can find out more information on the class, including the number of con-ed credits. If you click the heart in the upper right corner, you can add that session to your personal agenda and get notified when the session is about to start.

The entire program can be viewed by clicking Program at the bottom of the app.

Important information will be shared via the Feed button on the bottom of the app.

Want to network with others at EMS Update? Click the Networking button on the bottom of the app and connect with others. Make sure you complete your profile so others can find you.

Clicking the More button in the bottom right of the app will allow you to edit your profile, view our partners, sponsors and exhibitors and check out the maps of the resort and Exhibit Hall.
