

EMS UPDATE 2025 GETTING BIT BY EMS

DR. BEN ABO KEYSTONE SPEAKER

Director of the Venom One and Venom Two response teams of Miami-Dade Fire Rescue and Lake County Fire Rescue in Florida, is an EMS physician, paramedic and a premier venom and wilderness medicine expert globally.

"I don't need to know everything but I want to figure out what I don't know and know people who know it." This quote from Dr. Abo sums up his life perfectly. As an EMT in high school in New Jersey, he wanted to create his own path because sometimes you can choose a path, but you really are not sure where it's going to take you. But if you continue to carve out what you are passionate about, you can walk your path. Dr. Abo believes that sometimes we forget why we got into EMS and get stuck in ruts. As someone who has been fortunate and cursed with his experiences, Dr. Abo will discuss his lessons learned and try to teach others about letting the good times win and how getting bit by EMS at a young age determined his future.
